NSD POS SYSTEM

About Us

www.nsdarabia.com

NSD Co.

NSD is a global software editor company. Our international resources enabled us to deliver a consistent level of quality from one country to another. All of our offices and people, wherever they are located, practice under common professional, ethical and independence standards.

Our customers feedback always makes us feel proud and push us to improve our level of service. Our ambition is to be the leader when it comes to quality and service.

NSD POS System

Some Details

NSD POS is a powerful and practical sales management and inventory control system for retail, wholesale. It’s the perfect solution to improve the efficiency and profitability your business.

Characterized by a vast array of features, surprising flexibility and the best support service in the trading,

NSD POS software is the core of the sales management and inventory control system used in thousands of independent stores, wholesale distributors, and specialty chains. NSD POS is an affordable and reliable off-the-shelf solution for owner operated retail stores, plus it offers unrivaled speed and flexibility for multi-lane and multi-location businesses.

To access the POS system hovers over sales on the system menu and click the Point Of Sale link on the sub menu that appears.

The POS screen allows you to capture various transaction types:

- ❑ Customers Management (Information, History, Black list, Fidelity...)
- ❑ Customer Credit and Debit Management
- ❑ Customer Loan Management
- ❑ Sales Man Management (Sales Users Management)
- ❑ Store Management
- ❑ Shops Management
- ❑ Sales Planning
- ❑ Customer Invoicing Management
- ❑ All related reports...
